2024 International Conference on Electrical Power Systems and Intelligent Control (EPSIC) EPSIC 2024

Table of Contents

Preface
Organizing Committee

EPSIC 2024

Distributed Reactive Power Optimization for Active Distribution Network Based on Network Partition	1
<i>Jinzhou Zhu (Guangdong Power Grid Company Limited, China), Qingren Jin (China Southern Power Grid (CSG), China), Xinlei Cai (Guangdong Power Grid Company Limited, China), Lei Yu (China Southern Power Grid (CSG), China), Zijie Meng (Guangdong Power Grid Company Limited, China), Tong Liu (China Southern Power Grid (CSG), China), and Zhenfan Yu (Guangdong Power Grid Company Limited, China)</i>	
Design and Application of Intelligent Sensors in Hydropower Station	7
<i>Yuhong Qin (PowerChina Zhongnan Engineering Corporation Limited, China), Bo Xu (China Yangtze Power Co., Ltd, China), Yun Luo (PowerChina Zhongnan Engineering Corporation Limited Changsha, China), Xiang Wu (PowerChina Zhongnan Engineering Corporation Limited Changsha, China), Xiaobo Long (China Yangtze Power Co., Ltd, China), Zhibo Jiang (PowerChina Zhongnan Engineering Corporation Limited Changsha, China), and Renbo Tang (PowerChina Zhongnan Engineering Corporation Limited Changsha, China)</i>	
A Differentiated ArcGIS-Based Approach for Lightning Protection	11
<i>Kai Chen (State Grid Qinghai Electric Power Company, China), Tiezhu Dong (Power Construction Corporation of China, China), and Hongle Liu (State Grid Qinghai Electric Power Company, China)</i>	
Aggregated Scheduling Method of Energy Storage and Polycrystalline Silicon Load Based on Production Status	17
<i>Pengchao Zhang (State Grid Xiangyang Power Supply Company, China), Dongfeng Ren (State Grid Xiangyang Power Supply Company, China), Yuduo Xiao (Wuhan University, China), Mingjiang Peng (State Grid Xiangyang Power Supply Company, China), and Siyang Liao (Wuhan University, China)</i>	

Research on the Detection of False Data Injection Attacks in DC Microgrids Based on Attention Mechanism and DAE-CNN-BiLSTM	22
<i>Zhuoyu Guan (Taiyuan University of Technology College of Electrical and Power Engineering, China), Gengwu Zhang (Taiyuan University of Technology College of Electrical and Power Engineering, China), and Xiaoqing Han (Taiyuan University of Technology College of Electrical and Power Engineering, China)</i>	
Research on the Equilibrium Model of Electrical Energy and Flexible Ramping Market Considering Ramp Capacity Demand Curve	28
<i>Tian Sun (Beijing Power Exchange Centre Co., Ltd., China; Tsinghua University, China), Peng Ji (Beijing Power Exchange Centre Co., Ltd., China), Tong Xing (Beijing Power Exchange Centre Co., Ltd., China), Wenxuan Li (Tsinghua University, China), and Zhuochen Guo (Sichuan Energy Internet Research Institute Tsinghua University, China)</i>	
Low-Current Ground Fault Location Method Based on main Distribution Coordination	34
<i>Haifeng Zhao (NARI Technology Co. Ltd, China), Bingying Peng (NARI Technology Co. Ltd, China), Xinyu Qiu (NARI Technology Co. Ltd, China), Ji Zhang (NARI Technology Co. Ltd, China), Qi Li (NARI Technology Co. Ltd, China), and Qi Liu (NARI Technology Co. Ltd, China)</i>	
Research on Transformer Noise and Noise Reduction Measures Based on Multiphysical Field Coupling	40
<i>Yuhao Niu (Shandong University, China), Guan Wang (Shandong University, China), and Hao Wang (Shandong University, China)</i>	
A 110kV Main Transformer Substation Insulation Fault Analysis	46
<i>Pei Li (SGTC, China), Hongbo Li (SGTC, China), Mengchao Ma (SGTC, China), Ye Ai (SGTC, China), Yanyan Zhang (SGTC, China), Haifeng Li (SGTC, China), Qinghua Yin (SGTC, China), and Liangfeng Guo (SGTC, China)</i>	
High Voltage Fault Current Limiter by Fast Switch With Multiple Breaks in Series	50
<i>Wei Lyu (NR Electric Co., Ltd., China), Yuanzhen Xu (NR Electric Co., Ltd., China), Shaofei Liu (NR Electric Co., Ltd., China), Yu Chen (NR Electric Co., Ltd., China), Yu Lu (NR Electric Co., Ltd., China), and Taixun Fang (NR Electric Co., Ltd., China)</i>	
Research on Flow Field Characteristics of SF6 Gas Nozzle	55
<i>Dongyu Guo (Shenyang University of Technology College, China), Xiaolong Li (Shenyang University of Technology College, China), Wen Wang (China Electric Power Research Institute, China), Xin Lin (Shenyang University of Technology College, China), and Zhenxin Geng (Shenyang University of Technology College, China)</i>	
Research on Power Decoupling Strategy of Virtual Synchronous Generator Based on Virtual Power	59
<i>Minjie Fan (taiyuan university of science and technology, China), Yunguang Gao (taiyuan university of science and technology, China), Jianpeng Ji (taiyuan university of science and technology, China), Kailiang Sun (taiyuan university of science and technology, China), and Peng Chen (taiyuan university of science and technology, China)</i>	
A New Tightly-Coupled Lidar-Visual-Inertial Odometry with Loop Closures	67
<i>Weibin Li (XiDian Univerisity, China), Donghao Yang (XiDian Univerisity, China), and Zhanbin Li (Langge Technology Co., Ltd, China)</i>	

Gait Learning for 3D Bipedal Robots Based on a Combined Strategy of Hybrid Zero Dynamics Feedback Control and Periodic Reward	72
<i>Lingzhi Cui (Institute of Automation, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Tianqi Deng (Institute of Automation, Chinese Academy of Sciences, China), Lihua Ma (Institute of Automation, Chinese Academy of Sciences, China), and Wenhao He (Institute of Automation, Chinese Academy of Sciences, China)</i>	
Distributed Drive Torque Vector Control Strategy for Energy Saving and Maneuver Optimization Synergy	79
<i>Xiaozhe Guo (Southeast University, China), Zhenwu Fang (National University of Singapore, Singapore), Zhe Shi (Southeast University, China), Chaobin Zhou (Southeast University, China; Lanzhou University of Technology, China), and Jinhao Liang (National University of Singapore, Singapore)</i>	
Dynamic Hysteresis Modelling of Giant Magnetostrictive Actuators Based on NGO-BRNARX ..	86
<i>Xin Jia (Mechatronics T&R Institute Lanzhou Jiaotong University, China) and Jianjun Meng (Mechatronics T&R Institute Lanzhou Jiaotong University, China)</i>	
High Interaction Attack Defense Mechanism Based on RASP Technology in Power System Network Security Reinforcement	92
<i>Qiang Sun (State Grid Shandong electric power company weihai wendeng district power supply company, China), Chi Xiao (State Grid Shandong electric power company weihai power supply company, China), Chunlei Fan (State Grid Shandong electric power company weihai power supply company, China), Junxing Rong (State Grid Shandong electric power company weihai power supply company, China), Ranxing Yang (State Grid Shandong Electric Power Company Weihai Wendeng District Power Supply Company, China), and Roufei Li (State Grid Shandong Electric Power Company Weihai Wendeng District Power Supply Company, China)</i>	
Predictive Control Study of Active Anti-Rollover Model for Heavy-Duty Vehicles Considering Variable Curvature Curves	98
<i>Zhe Shi (Southeast University, China), Zhenwu Fang (National University of Singapore, Singapore), Xiaozhe Guo (Southeast University, China), Yanbo Lu (Tsinghua University, China), Faan Wang (Kunming University of Science and Technology, China), and Jinhao Liang (National University of Singapore, Singapore)</i>	
A Load Shedding Control Method for Power System Based on Frequency Prediction and Deep Reinforcement Learning	105
<i>Chenghao Li (Electric Power Research Institute State Grid Henan Electric Power Company, China), Di Zhang (Electric Power Research Institute State Grid Henan Electric Power Company, China), Ji Han (Harbin Institute of Technology at Weihai, China), Longjie Xie (Harbin Institute of Technology at Weihai, China), Ze Gao (Electric Power Research Institute State Grid Henan Electric Power Company, China), Zhou Fang (Electric Power Research Institute State Grid Henan Electric Power Company, China), and Chunsun Tian (Electric Power Research Institute State Grid Henan Electric Power Company, China)</i>	
A Progress Prediction Model using Res-zLSTM for LOCA in Nuclear Power Plants	111
<i>Liang Liu (Hunan University, China), Jingke She (Hunan University, China), Lingyu Shu (Hunan University, China), and Yizhong Zhao (Hunan 6906 Information Technology Co. Ltd., China)</i>	

Comprehensive Evaluation Method for User Green Attributes Considering Low-Carbon Electricity Consumption Behavior	117
<i>Jingting Wang (North China Electric Power University, China), Yuyang Wang (North China Electric Power University, China), Ming Zhou (North China Electric Power University, China), Xuesen Zhang (State Grid Digital Technology Holding Co., Ltd., China), Tao Yu (State Grid Shanghai Municipal Electric Power Company, China), Chunyi Chen (State Grid Shanghai Municipal Electric Power Company, China), and Zhaoyuan Wu (North China Electric Power University, China)</i>	
A Human-Machine Cooperative Control Framework for Intelligent Vehicle Considering Intervention Punishment	123
<i>Xiaohan Wu (University of Technology Malaysia, Malaysia) and Chaobin Zhou (Southeast University, China; Lanzhou University of Technology, China)</i>	
Exploring Control Strategies for Flexible Interconnect Devices in High-Ratio Power Electronic Systems	130
<i>Tao Lu (China Electric Power Research Institute, China; China University of Mining and Technology, China), Chenyang Xia (China Electric Power Research Institute, China; China University of Mining and Technology, China), Kaicheng Liu (China Electric Power Research Institute, China), and Songcen Wang (China Electric Power Research Institute, China)</i>	
High-Gain DC-DC Converter with Symmetric Interleaved Parallel Structure for Household Photovoltaic System	135
<i>Zhixiang Yang (Hunan University, China; Wasion Energy Technology Co., Ltd, China), Xijun Feng (Wasion Energy Technology Co., Ltd, China), Bihua Hu (Xiangtan University, China), Kaiyi Wang (Wang Wasion Energy Technology Co., Ltd, China), and Hao Zhou (Wasion Energy Technology Co., Ltd, China)</i>	
Research on Vehicle Active Steering Control Based on Linear Matrix Inequalities	140
<i>Shifu Liu (Dezhou Vocational and Technical College, China), Faan Wang (Kunming University of Science and Technology, China), Chaobin Zhou (Lanzhou University of Technology, China), Feng Ai (Dezhou Vocational and Technical College, China), Leigang Huo (Dezhou Vocational and Technical College, China), and Guangfei Xu (Liao Cheng University, China)</i>	
Coordinated Generation and Transmission Expansion Planning Method Considering Typhoons Disasters and Credibility of Wind Power Capacity	147
<i>Zheng Wang (East China Branch of State Grid Corporation, China), Jing Zhou (Shanghai Jiao Tong University, China), Nan Yang (East China Branch of State Grid Corporation, China), Shanke Mou (East China Branch of State Grid Corporation, China), Hao Chen (East China Branch of State Grid Corporation, China), and Haozhong Cheng (Shanghai Jiao Tong University, China)</i>	
Research on Virtual LiDAR Wind Measurement Technology for Wind Farms Based on CFD and Deep Learning	153
<i>Zhongyao Fan (China General Nuclear Power Corporation, China), Zhaohui Wang (China General Nuclear Power Corporation, China), Nina Wang (PowerChina Huadong Engineering Co.Ltd, China), and Rui Wu (China General Nuclear Power Corporation, China)</i>	

Ensuring Physical Consistency in Power Flow Sample Generation via Automated Tie-Bus Adjustment	158
<i>Qianhong Wu (State Key Laboratory of Power Grid Safety and Energy Conservation (China Electric Power Research Institute), China), Dundun Liu (University of Macau Zhuhai UM Science and Technology Research Institute, China), Mike Zhou (State Key Laboratory of Power Grid Safety and Energy Conservation (China Electric Power Research Institute), China), and Yadan Wang (University of Macau Zhuhai UM Science and Technology Research Institute, China)</i>	
Influence of Train Overvoltage on Grounding Circulation of Traction Cable	163
<i>Zhongyan Zhai (Zhejiang Rail Transit Operation Management Group Limited, China)</i>	
Study on the Influence of Traction Reflux on Rail Magnetization in Electrified Railway	169
<i>Denghui Ma (Shaanxi Intercity Railway Co., Ltd, China), Hui Qiao (Xi'an Rail Transit Investment Development Co., Ltd, China), and Chengjin Zhang (CRRC Changchun Railway Vehicles Co., Ltd, China)</i>	
An Adaptive Secondary Frequency Control Strategy for Distributed Energy Resources to Improve the Dynamic Performance of Microgrids	173
<i>Zhukui Tan (Electric Power Research Institute Guizhou Power Grid Company Ltd, China), Shuyin Duan (Electric Power Research Institute CSG, China), Yang Wang (Electric Power Research Institute Guizhou Power Grid Company Ltd., China), Yinliang Liu (Electric Power Research Institute CSG, China), Yongxiang Cai (Electric Power Research Institute Guizhou Power Grid Company Ltd., China), Lvzerui Yuan (Electric Power Research Institute CSG, China), Peng Wu (Electric Power Research Institute Guizhou Power Grid Company Ltd., China), Lei Yu (Electric Power Research Institute CSG, China), and Jinshuo Su (Electric Power Research Institute Guizhou Power Grid Company Ltd., China)</i>	
Author Index	179
