

PROCEEDINGS OF SPIE

# ***Advanced Materials, Biomaterials, and Manufacturing Technologies for Security and Defence II***

**Chantal Andraud  
Roberto Zamboni  
Andrea Camposeo  
Luana Persano**  
*Editors*

**18–19 September 2024  
Edinburgh, United Kingdom**

*Sponsored by  
SPIE*

*Event Sponsor  
Leonardo MW Ltd. (United Kingdom)*

*General Sponsors  
HGH Infrared Systems (France) • Photon Lines Ltd. (United Kingdom) • Pro-Lite Technology Ltd. (United Kingdom) • Thales  
(United Kingdom)*

*Cooperating Organisations  
Cranfield University (United Kingdom) • Quantum Security and Defense Working Group (United Kingdom) • CENSIS  
(United Kingdom) • Innovate UK (United Kingdom) • Optoelectronics Research Centre • (United Kingdom) • Photonics21  
(Germany) • Technology Scotland (United Kingdom) • Science and Technology Facilities Council (United Kingdom)  
UKQuantum (United Kingdom) • Visit Britain (United Kingdom)*

*Published by

**Volume 13205**

Proceedings of SPIE 0277-786X, V. 13205

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Advanced Materials, Biomaterials, and Manufacturing Technologies for Security and Defence II*, edited by Chantal Andraud, Roberto Zamboni, Andrea Camposeo, Luana Persano, Proc. of SPIE 13205, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Conference Committee*

---

## METAMATERIALS AND NANOSTRUCTURES

---

13205 03 **Toward frugal calibration protocols for intelligent programmable meta-imagers (Invited Paper)** [13205-2]

---

## ADDITIVE MANUFACTURING TECHNOLOGIES FOR ADVANCED APPLICATIONS

---

13205 07 **Direct 3D printing of smooth optical elements** [13205-6]

13205 08 **Graphene-based electronic devices for radiation detection and thermosensing** [13205-7]

13205 09 **Spin-coated synthesis of polyvinylidene fluoride-barium titanate nanocomposite piezoelectric flexible thin films** [13205-8]

13205 0A **Optical and ultrasound transmission through additively printed transparent polymer** [13205-9]

---

## EMERGING MATERIALS FOR DEFENCE AND SECURITY

---

13205 0D **Nonlinear optical materials for sensor protection against pulsed laser radiation in the visible spectral region** [13205-12]

13205 0E **Ultrashort pulsed laser welding of co-doped Er,Yb:Phosphate laser glass and Nd:YAG laser crystals to structural materials for robust mechanical mounting and thermal management** [13205-13]

---

## NOVEL ARCHITECTURES AND MATERIALS FOR LIGHT-SOURCE DETECTORS AND SENSORS

---

13205 0G **Carrier injection via V-defects for efficient green and red GaN LEDs** [13205-15]

---

## POSTER SESSION

---

13205 0I **Examination of degradation degree of fingerprints for visualizing aged fingerprint using an ultraviolet laser** [13205-19]
