2024 11th International Conference on Dependable Systems and Their Applications (DSA)

DSA 2024

Table of Contents

Message from the Conference Chairs ..... **xiii**
Organizing Committee ..... **xv**
Steering Committee ..... **xvi**
Program Committee ..... **xvii**
Keynote Speaker I ..... **xix**
Keynote Speaker II ..... **xx**
Keynote Speaker III ..... **xxi**

Artificial Intelligence and Machine Learning

Pruning-Based Optimization of Model Distillation Algorithm Using Explainable Machine Learning Methods 1
Bobing Shen (Wuhan Digital Engineering Institute, China) and Haibo Zhang (Wuhan Digital Engineering Institute, China)

Software Defect Prediction Model Based on Syntactic Semantics and Flow Information Features 6
Chongyang Huang (Jiangsu Normal University, China), Yi Zhu (Jiangsu Normal University, China; Nanjing University of Aeronautics and Astronautics, China), Qiao Yu (Jiangsu Normal University, China), Yi Ding (Jiangsu Normal University, China), and Guosheng Hao (Jiangsu Normal University, China)

Deep Learning Model Risk Identification and Control Technology 16
Haoran Zhang (Institute of Software Chinese Academy of Sciences, China; Hohai University, China), Guang Yang (Institute of Software Chinese Academy of Sciences, China), Hongyun Yu (Institute of Software Chinese Academy of Sciences, China), Lingzhong Meng (Institute of Software Chinese Academy of Sciences, China), and Baolin Yan (Institute of Software Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Prediction of Carbon Emissions Based on PCA and Neural Network Models Under the "Dual Carbon" Background 25
Rui Li (Dalian Navy Academy, China)

Metrics and Testing Methods for Artificial Intelligence Software Quality Models and Their Application Examples 35
Mengfei Guo (China Aerospace Academy of Systems Science and Engineering, China), Dong Guo (China Aerospace Academy of Systems Science and Engineering, China), and Mo Li (China Aerospace Academy of Systems Science and Engineering, China)

Retrainable Hand Gesture Recognition Model Driven by Edge AI 43
Tse-Chuan Hsu (Soochow University, Taiwan) and Dong-Meau Chang (Lingnan Normal University, China)

Generative AI for Smart Contracts in Real Estate Business 49
Wenqian Zhao (University of North Texas, United States), Lavanya Pobbathi (University of North Texas, United States), Srinivasan Ramprasath (University of North Texas, United States), and Meghana Patibandla (University of North Texas, United States)

Fin-MLGAT: Line Graph Attention Network for Dialogue Emotion Recognition in Stock Market and its Evaluations 60
Xiaobing Feng (Shanghai University of International Business and Economics, Institute of Change Management and Artificial Intelligence, China), Ling Feng (Shanghai Ocean University, China), Xiujuan Xu (Dalian University of Technology, China), Jiaqi Qiao (Dalian University of Technology, China), and Wenjian Zhang (Dalian University of Technology, China)

WVRF_CGT: WVRF Automatic Filter Based Cascading Graph Transformer for Information Diffusion in Stock Q&A Platform 68
Xiaobing Feng (Shanghai University of International Business and Economics, China), Ling Feng (Shanghai Ocean University, China), Pengfei Jiao (Hangzhou Dianzi University, China), Zhiliang Zheng (Hangzhou Dianzi University, China), and Qing Bao (Hangzhou Dianzi University, China)

Cybersecurity and Dependability

An Efficient Task Scheduling for Security and Stability Control System Models on Multi-Core Systems 75
Zhi Wang (College of Computer Northwestern Polytechnical University, China) and Bo Shen (College of Computer Northwestern Polytechnical University, China)

Interplay of Attacker Behaviors and Dependability Attributes in Industrial Control System Impact Analysis 86
Alvi Jawad (Carleton University, Canada) and Jason Jaskolka (Carleton University, Canada)

Functional Safety Evaluation for Cybersecurity Measures in Low-End Automotive Control Units 96
Sergei Hammer (né Bauer) (Alpen-Adria Universität Klagenfurt, Austria) and Peter Schartner (Alpen-Adria Universität Klagenfurt, Austria)

Enhancing Dependability of Industrial Robots: Security and Safety Assessments Based on Model-Driven Engineering 106
Eun-Young Kang (University of Southern Denmark, Denmark), Gaurav Choudhary (University of Southern Denmark, Denmark), Miguel Campusano (University of Southern Denmark, Denmark), Morten Kuhnrich (4X Robots, Denmark), and Anders Pedersen (Danish Technological Institute, Denmark)

Detection and Estimation of False Data Injection Attacks by Unmanned Surface Vessels 114
Kun Leng (Ludong University, China), Li Liu (Ludong University, China), He Zhang (Ludong University, China), Yihao Li (Ludong University, China), and Pan Liu (Shanghai Business School, China)

Software Testing and Quality Assurance

MetBench: A Numerical Expression Metamorphic Relations Benchmark Data Set 120
Yin Zhao (University of South China, China), Meng Li (University of South China, China; Hunan Engineering Research Center of Software Evaluation and Testing for Intellectual Equipment, China; CNNC Key Laboratory on High Trusted Computing, China), Yongcheng Su (University of South China, China), Kailin Zi (University of South China, China), and Cong Zeng (University of South China, China)

Automated Structural Test Case Generation for Human-Computer Interaction Software Based on Large Language Model 132
Long Kang (Beihang University, China), Jun Ai (Beihang University, China), and Minyan Lu (Beihang University, China)

Semantic-Guided Adaptive Exploration Testing for GUI Software 141
Yingxiang Huang (Beihang University, China), Minyan Lu (Beihang University, China), and Xun Long (Beihang University, China)

Prioritization of Crowdsourced Test Reports Based on Defect Severity and Frequency Weighting 150
YiHao Li (Xiamen University of technology, China), Lei Xiao (Xiamen University of technology, China), WeiWei Zhuang (Xiamen University of technology, China), XiaoZhu Xie (Xiamen University of technology, China), and JiaWei Zhang (Xiamen University of technology, China)

An Analysis and Comparison of Mutation Testing Tools for Python 161
Kadiatou Diallo (Lawson State Community College, United States), Zizhao Chen (University of Texas at Dallas, United States), W. Eric Wong (University of Texas at Dallas, United States), and Shou-Yu Lee (Tunghai University, Taiwan)

Coverage-Guided Testing for Automatic Speech Recognition Systems 170
Yang Xu (Beijing Sunwise Information Technology Ltd., China), Tingting Yu (Beijing Sunwise Information Technology Ltd., China; Beijing Institute of Control Engineering, China), and Rui Chen (Beijing Sunwise Information Technology Ltd., China; Beijing Institute of Control Engineering, China)

Reliability and Testing for Artificial Intelligence Systems

A Review of Reliability Verification Technology for Aviation Intelligent Systems 172
Jiao Li (Aviation Key Laboratory of Science and Technology on Aero Combined Environment of China Aero-Polytechnology Establishment, China), Wensheng Peng (Aviation Key Laboratory of Science and Technology on Aero Combined Environment of China Aero-Polytechnology Establishment, China), Zhaoyang Zeng (Aviation Key Laboratory of Science and Technology on Aero Combined Environment of China Aero-Polytechnology Establishment, China), and Ming Xu (Aviation Key Laboratory of Science and Technology on Aero Combined Environment of China Aero-Polytechnology Establishment, China)

A Hybrid Malicious Node Detection Approach Based on Fuzzy Trust Model and Bayesian Belief in Wireless Sensor Networks 182
Hongyang Zhao (The Fifth Electronic Research Institute of MIIT, China), Jiawang Chen (The Fifth Electronic Research Institute of MIIT, China), Beishui Liu (The Fifth Electronic Research Institute of MIIT, China), and Shuai Li (The Fifth Electronic Research Institute of MIIT, China)

Semantic-Weighted Word Error Rate Based on BERT for Evaluating Automatic Speech Recognition Models 189
Yutao Zhang (School of Reliability and Systems Engineering, Beihang University, China) and Jun Ai (School of Reliability and Systems Engineering, Beihang University, China)

A Time-Aware Recommendation Model with Social Impact 199
Yuheng Su (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), Yi Zhu (Jiangsu Normal University, China, China; Jiangsu Engineering Technology Research Center of ICT in Education, China; Nanjing University of Aeronautics and Astronautics, China), Mei Song (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), Weichao He (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), and Guosheng Hao (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China)

A Vulnerability Propagation Impact Analysis Approach Based on Code Semantics with LLM 209
Xun Long (Beijing University of Aeronautics and Astronautics, China), Jun Ai (Beijing University of Aeronautics and Astronautics, China), Jieyu Zhao (Beijing University of Aeronautics and Astronautics, China), and Yingxiang Huang (Beijing University of Aeronautics and Astronautics, China)

A Survey of Mutation Based Testing Adequacy Study on Smart Contract 217
Haoli Chen (Nanjing Nanrui Information and Communication Technology Co., Ltd., China), Chunlei Zhu (Nanjing Nanrui Information and Communication Technology Co., Ltd., China), Liang Zhang (Nanjing Nanrui Information and Communication Technology Co., Ltd., China), Yan Zhao (Nanjing Nanrui Information and Communication Technology Co., Ltd., China), and Lie Wang (Nanjing Nanrui Information and Communication Technology Co., Ltd., China)

Survey on Simulation Testing of Autonomous Driving System 221
Chunyan Xia (Mudanjiang Normal University, China), Changyou Zheng (Army Engineering University of PLA, China), Yuchen Xia (Mudanjiang Normal University, China), Xiangjing Kong (Mudanjiang Normal University, China), and Xiayi Song (Mudanjiang Fourth Middle School, China)

Bug Detection and Threat Analysis

Enhancing the Detection of Anomalous Artifact Operations in Temporal Structured Workflows 230
Mahmoud M. Abouzeid (National Yang Ming Chiao Tung University, Taiwan), Pei-Shu Huang (National Yang Ming Chiao Tung University, Taiwan), and Feng-Jian Wang (National Yang Ming Chiao Tung University, Taiwan)

HYDBre: A Hybrid Retrieval Method for Detecting Duplicate Software Bug Reports 242
JiaWei Zhang (Xiamen University Of Technology, China), Lei Xiao (Xiamen University Of Technology, China), MiaoJun Li (Library Of Xiamen University Of Technology, China), ZhaoRui Meng (Xiamen University Of Technology, China), and YiHao Li (Xiamen University Of Technology, China)

Target Threat Judgement Based on Entropy-Topsis Method and Intent Classification 252
Yingqiang He (Dalian Naval Academy, Dalian), Xingjun Chen (Dalian Naval Academy, Dalian), and Yitao Wang (Dalian Naval Academy, Dalian)

Evaluation and Modeling

A Survey of Comprehensive Evaluation Methods 260
Wentao Zhao (Institute of Software Chinese Academy of Sciences, China; Nanjing University of Information Science and Technology, China), Guang Yang (Institute of Software Chinese Academy of Sciences, China), Mengcen Jiang (AVIC Shenyang Aircraft Design and Research Institute, China), Lingzhong Meng (Institute of Software Chinese Academy of Sciences, China), and Mengmeng Wang (Institute of Software Chinese Academy of Sciences, China)

A Quantitative Evaluation Approach for Online Review Quality Based on the AHP-Fuzzy Comprehensive Evaluation 269
Mingwei Tang (Nanjing Audit University, China), Yihan Qin (Nanjing Audit University, China), Lu Zhang (Nanjing Audit University, China), Hongru Lu (Nanjing Audit University, China), and Tingyu Zhang (Nanjing Audit University, China)

Network Robustness and Optimization

Robustness Aware SFC Placement in NFV-Enabled Multi-Domain Networks Under Resource Demand Uncertainty 280
Chuangchuang Zhang (Ludong University, China), Shou-Yu Lee (Tunghai University, Taiwan), Pan Liu (Shanghai Business School, China), Hongyong Yang (Ludong University, China), and William Cheng-Chung Chu (Tunghai University, Taiwan)

Planning Model of Air Defense Kill Webs Based on Genetic Algorithm 289
Mingwei Shi (Dalian Naval Academy, China) and Hongquan Shi (Dalian Naval Academy, China)

A Reliable Extrapolative Capacity Estimation Method for Complex Distributed Web Services 297
He Zhou (Beihang University, China) and Rui Kang (Beihang University, China)

Data Augmentation, Transmission, and Management

Research on Data Augmentation Methods for Small Sample Image Datasets 305
Xiaoquan Gao (China Institute of Marine Technology and Economy, China), Fan Liu (Nanjing University of Information Science and technology, China), Tianhao Wu (China Institute of Marine Technology and Economy, China), Hongxiao Liu (China Institute of Marine Technology and Economy, China), and Yuan Zhou (Nanjing University of Information Science and technology, China)

Research on Methods for Presenting Battlefield Situation Hotspots 313
Yifan Guo (North Automatic Control Technology Institute, China), Wenjun Xue (North Automatic Control Technology Institute, China), Wenxiu Ma (North Automatic Control Technology Institute, China), Zhangfeng Ju (North Automatic Control Technology Institute, China), and Yuanheng Li (North Automatic Control Technology Institute, China)

Design of Individual Soldier Multimedia Command and Control System Based on Ad Hoc Wireless Mesh Network 320
Yuanheng Li (North Automatic Control Technology Institute, China), Zhangfeng Ju (North Automatic Control Technology Institute, China), Wenxiu Ma (North Automatic Control Technology Institute, China), Wenjun Xue (North Automatic Control Technology Institute, China), and Yifan Guo (North Automatic Control Technology Institute, China)

Virtualization and System Optimization and Interoperation

A Virtual Texture Technology Realized on Low Computational Power Platforms 324
Jinzhao Ma (Northwestern Polytechnical University, China), Zhenyu Fang (Northwestern Polytechnical University, China), Jiangbin Zheng (Northwestern Polytechnical University, China), and Jun Cao (Nanjing RuiYue Technology Ltd., China)

Virtualized TCP/IP Protocol Stack Based on VxWorks 331
Zhiping Zhang (Northwestern Polytechnical University, China), Xin Zhao (Northwestern Polytechnical University, China), and Jiangbin Zheng (Northwestern Polytechnical University, China)

Container Design Based on VxWorks 336
Xin Zhao (Northwestern Polytechnical University, China), Zhiping Zhang (Northwestern Polytechnical University, China), and Jiangbin Zheng (Northwestern Polytechnical University, China)

Analysis on Individual Manned and Unmanned Cooperation Interoperable Computing 342
Zhangfeng Ju (North Automatic Control Technology Institute, China), Wenxiu Ma (North Automatic Control Technology Institute, China), Yuanheng Li (North Automatic Control Technology Institute, China), Yifan Guo (North Automatic Control Technology Institute, China), and Ran Ju (Northwest Normal University, China)

Object Detection and Computer Vision

Infrared Object Detection Based YOLOv8s from UAV Images 349
Wen Ye (Northwestern Polytechnical University, China), Xinyi Zhu (Northwestern Polytechnical University, China), Yanjing Guo (Northwestern Polytechnical University, China), and Mingyu Huang (Northwestern Polytechnical University, China)

YOLOv8s-D2: A Novel Object Defect Detection Algorithm Based on Improved YOLOv8s 358
Xinsheng Zhang (Hubei University, China), Jing Hu (Hubei University, China), and Junlong Xiao (Hubei University, China)

YOLO-Based Component Detection System for Electrical Diagrams 365
Zixuan Zhu (Economic & Technological Institute, State Grid Shanghai Municipal Electric Power Company, China), Qingxia Li (Northwestern Polytechnical University (NPU), Xi'an, China), and Zhenyu Fang (Northwestern Polytechnical University (NPU), China)

StyleEditorGAN: Transformer-Based Image Inversion and Realistic Facial Editing 374
Jing Hu (Hubei University, China) and Xinsheng Zhang (Hubei University, China)

Research on 3D Visualization of Human Body Actions 381
Wenxiu Ma (North Automatic Control Technology Institute, China), Yuanheng Li (North Automatic Control Technology Institute, China), Xingwei Xue (North Automatic Control Technology Institute, China), Keke Pei (North Automatic Control Technology Institute, China), and Yifan Guo (North Automatic Control Technology Institute, China)

Creative Computing

Introduction of a Time-Parameter for State Analysis in Affective Computing 386
Phillip Zhang (University of Leicester, England) and Hongji Yang (University of Leicester, England)

A Computational Model for Spatial Exploration in Regional Economic Collaborative Development: A Case Study 393
Xiaoxu Qi (Beijing Institute of Fashion Technology, China) and Mengmeng Mao (Beijing Institute of Fashion Technology, China)

A Comparative Study of Hybrid CNN and Vision Transformer Models for Facial Emotion Recognition 401
Zetian Shen (University of Edinburgh, United Kingdom)

Deep-Deploying Imagination in Creative Computer for Dependent System Design 409
Chong Zeng (University of Leicester, UK; Longyan University, China; Institute for Digital Culture, University of Leicester), Zisen Zhou (University of Leicester, UK; Institute for Digital Culture, University of Leicester), Yun Zhang (University of Leicester, UK; Institute for Digital Culture, University of Leicester), Zhongxi Lu (University of Leicester, UK; Institute for Digital Culture, University of Leicester), and Hongji Yang (University of Leicester, UK; Institute for Digital Culture, University of Leicester)

Exploring the Healing Power of Digital Technology in Promoting Health and Well-Being: A Case Study of Smart Tourism Applications 417
Lu Zhang (State Key Laboratory of Smart Tourism, Beijing Union University, China) and Meiyu Shi (Tourism College, Beijing Union University, China)

Fast Abstract

Distributed Spectrum Sensing Structure Design Based on Distributed Deep Neural Network 426
Cheng Chang (China Academy of Launch Vehicle Technology, China), Lina Feng (Beijing Institute of Astronautical Systems Engineering, China), Yuan Li (Bureau of Aerospace Representation, China), and Yangrui Kang (China Academy of Launch Vehicle Technology, China)

AI-Assisted Bug Detection in Open-Source Software 428
Pan Liu (Shanghai Business School, China), Ruyi Luo (Shanghai Business School, China), Chengwu Jiang (Shanghai Business School, China), Tong Gao (Shanghai Business School, China), and Yihao Li (Ludong University, China)

Digital Transformation of Security Standards: Requirements Extraction using Large Language Models 430
Miltiadis Siavvas (Centre for Research and Technology Hellas, Greece), Georgia Xanthopoulou (Centre for Research and Technology Hellas, Greece), Ilias Kalouptsoglou (Centre for Research and Technology Hellas, Greece), Dionysios Kehagias (Centre for Research and Technology Hellas, Greece), and Dimitrios Tzovaras (Centre for Research and Technology Hellas, Greece)

Autonomous Driving Software Testing Based on Interpretation Analysis 432
Songcheng Xie (Beijing Information Science and Technology University, China), Shengpeng Zhu (Beijing Information Science and Technology University, China), Qifan He (Beijing Information Science and Technology University, China), and Zhanqi Cui (Beijing Information Science and Technology University, China)

Author Index **435**
